UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO.   : 7,464,408 B1   Page 1 of 1
APPLICATION NO. : 10/651588
DATED   : December 9, 2008
INVENTOR(S)   : Shah et al.

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

<u>IN THE CLAIMS</u>

At column 11, line 50, please replace "entrusted" with "untrusted" so that the corresponding claim reads
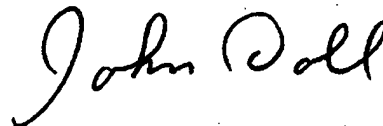

--14. A computer system comprising: a processing module; a software program; and an operating system; the software program configured for running on the operating system, the operating system having a translated system call interface, the translated system call interface comprising a first set of translated system call names for disclosing to trusted parties, the translated system call interface further comprising a second set of dummy system call names untranslated system call names for trapping untrusted parties, the software program comprising:

   a set of one or more instructions;

   wherein the set of one or more instructions comprises one or more references to the first set of translated system call names.--
